

PUBLIC NOTICE
Virginia Voluntary Remediation Program

Parcel 14 (Former Davis Industries Site)
Parcel 15 (Former Arlington Industrial Area)
Future Location of Arlington County's Long Bridge Park

Arlington County has enrolled Parcel 14, the Former Davis Industries Site (located at 311 Sixth Street South), and Parcel 15, the Former Arlington Industrial Area (located at 475 Old Jefferson Davis Highway), in the Virginia Voluntary Remediation Program (VRP). The VRP is administered by the Department of Environmental Quality (VDEQ). Remedial action planning documents have been provided to VDEQ for review and approval. VDEQ has provided general concurrence with the proposed remediation plan for these parcels.

This notice is to fulfill the VRP's public participation requirement (9 VAC 20-160-120(A)(3), as the County moves forward with the integrated remediation and construction of Long Bridge Park. A [fact sheet](#) providing more information about the remedial action planning documents for Parcels 14 and 15 is available on the Arlington County website (see below).

In accordance with the VRP, voluntary investigations and human health risk assessments have been completed for Parcels 14 and 15; and some remediation activities have been done on Parcel 14. In order to convert Parcels 14 and 15 from industrial to recreational land use, onsite remediation (excavation, treatment, consolidation, and capping of remaining contaminated soil) will be completed during the construction of the infrastructure and outdoor components of the new park.

Park construction and remedial activities are expected to begin in early 2010. Deed restrictions and institutional controls required for continued protection of human health will be established and documented. After the remedial actions at Parcels 14 and 15 have been completed, Arlington County will request VRP Certificates of Satisfactory Completion for these parcels from VDEQ.

For Additional Information or to Submit Comments: You can read more about Long Bridge Park by visiting Arlington County's website at <http://www.arlingtonva.us/longbridgepark>. Requests for additional information are always welcome.

Written comments about the remedial action will be accepted for 30 days following the publication date of this notice. You may use the "Comments, Questions?" link on the Long Bridge Park web page, or write to:
